

Did you know that effective cleaning **removes 99.9% of microorganisms?**

WITNESS THE POWER OF INTRA FOAMCLEANER

In order to remove stubborn dirt and organic material, such as plant juices, using an optimally formulated cleaning agent such as Intra Foam Cleaner is essential to ensure optimal biosecurity.

Intra Foam Cleaner produces a stable foam upon application, which is important in reaching all the hiding spots of the organic material.

5 REASONS TO CHOOSE INTRA FOAMCLEANER

- ✓ Formulated for heavy duty cleaning of greenhouse equipment
- ✓ Fast and powerful removal of pollution by multiple mechanisms of action
- ✓ Superior foam production for maximum contact time
- ✓ Deep Clean Technology for the detachment of pollution
- ✓ Effective removal of plant rests, plant juices and organic dirt

Using Intra Foamcleaner saves up to **40%** of the time needed to clean

A foam **ADHERES** to vertical surfaces better and increases contact time

Intra Foamcleaner is already **EFFECTIVE** at 4 ml per m²

INTRA FOAMCLEANER REDUCES THE AMOUNT OF WATER NEEDED TO CLEAN

Intra Foam Cleaner improves your hygiene for future proof growing
